

Subject Index

A

Acetylcholine 111, 268
 Activity, locomotor 55, 125, 131, 283
 — mice 197
 — open field 171
 Alcohol 35, 69, 167
 AMP 307
 Amphetamine 89, 131, 171, 289
 — pregnancy 171
 β -Amphetamine 73
 d-Amphetamine 73, 79, 137, 181, 185
 — drinking 311
 l-Amphetamine 137
 Analgesia 105
 Antianxiety agents 2
 Antidepressants 55
 Anxiety 7
 Anxiolytics 4
 Apomorphine 137, 283, 289
 Arousal, cats 223
 — human subjects 189
 — mice 197
 Avoidance 69

B

Beagles 89
 Behavior, circling 131
 — offsprings in rats 69
 — rotational 153
 — stereotyped 55, 89
 Behavioral activation 43
 Benzodiazepine 5, 217
 Brain dysfunction, minimal 157

C

Catecholamines 105
 Cats 27
 Chlorpromazine 49, 197, 201, 241
 Chronopharmacology 49
 Cigarette length, effect on smoking 303
 Circadian rhythms 49
 Clobazam 27
 Clonidine 283, 289
 Cocaine 125, 247
 Cortisol 189

D

Depression, animal model 55
 Deprivation level, food 99
 Dexamphetamine 283
 Desmethylinipramine 55
 Dextroamphetamine 189
 Diazepam 27, 99
 5,6-Dihydroxytryptamine 153
 Discrimination, in rats 241
 Dopamine 43, 131
 — antagonists 55

— sensitivity 213

Drinkers, casual 35
 — heavy 35
 Drinking 35
 DRL reinforcement 185
 Drug discrimination 247, 257
 — gerbils 271
 Drug effect, reinforcing 289
 Drug self administration 20, 289
 Drugs, anxiolytic 217
 — psychotropic 235
 Dyskinesia, sex differences 207
 — tardive 117, 207

E

EEG analysis, computer 27
 Electrocorticogram in cats 223
 Endocrine agents in mice 145
 Enrichment environmental 197
 Ethanol 19, 229
 — heart rate 95
 Ethylketazocine 125
 Etorphine 105
 Euphoria 189

F

Fentanyl 257

G

Gerbils 271
 Glucose metabolism in rats 317
 Growth hormone 189
 Guinea pig 213

H

Haloperidol 247
 Head twitch in mice 145
 Heart rate in humans 95
 Heart rate normalization 95
 Hebb-Williams maze 69
 Human subjects 1, 35, 43, 95, 111, 117,
 189, 201, 217, 297, 303, 307
 6-Hydroxydopamine 105, 153, 157
 5-Hydroxytryptophan 115, 145
 Hyperactivity in rats 157
 Hyperthermia 89, 277
 Hypothalamus 63
 Hypothermia 277

I

Inhibition, differential 213

J

Jumping, naloxone-induced 125

K

Kinetics 89
 Krebs, cycle 317

L

Lead poisoning in rats 268
 Lithium 213, 317
 LSD in cats 223

M

Malnutrition in rats 268
 Marijuana 297
 Maze performance in rats 171
 MBD in rats 157
 Metabolism, carbohydrate 161
 — lipid 161
 Met-Enkephalin 277
 Methylphenidate 43, 79, 157, 189
 Mice 95, 125, 145, 161, 181, 197, 283
 Morphine 63, 105, 125, 257, 271, 277
 — detection of shock 241
 — self administration 175
 Movement disorders in human 207

N

Naloxone 277
 Naltrexone 271
 Narcotic cue 257
 Near vision in schizophrenics 235
 Nestbuilding in mice 181
 Neuroleptics 117, 207
 Nicotine 303
 Nomifensine 79
 Nonverbal free recall 297
 Noradrenaline 213, 283
 — antagonists 55

O

Outpatients 1
 Oxotremorine 115

P

Parahydroxyamphetamine 89
 Parkinson's disease 307
 Pentobarbital 167, 181
 Pharmacokinetics in amphetamine 73
 Phenoxybenzamine 137, 283
 Photopalpebral reflex 217
 Physostigmine 111
 Pigs 99
 Pimozide 137, 247, 283
 Pipradol 79
 Piribedil 289
 Pregnancy in rats 69
 Prolactin 43
 Propanolol 307
 Psychosis, behavioral models 181
 Psychostimulation 43
 Punishment, pigs 99
 Pupillary reaction, schizophrenics 235

R

Rabbits 27
Raphe lesions 105
Rats 49, 55, 63, 73, 79, 105, 137, 153, 157,
167, 171, 175, 185, 229, 241, 247, 257,
268, 277, 289, 311, 317
— morphine tolerant 277
— neonatal 157
Reinforcement 79, 185
REM sleep in cats 223
REM sleep in humans 111
Response dependency after morphine 63
Response variability in heart rate 95
Rhesus monkeys 19

S

Schizophrenics 247, 307
Scopolamine and drinking 311
Sedative effects 49
Self-stimulation, intracranial 63
Serotonin 105
Shock intensity 99
Sleep in humans 111, 201
Smoking 303
Spinal reflexes 27
Spiperone 247
Startle response 137
Stereospecificity in gerbils 271
Stereotypy, apomorphine induced 115

Stimulants, psychomotor 79
Strychnine 197
Swimming behavior in mice 161

T

Tetrabenazine 55
Tetrahydroaminoacridine 115
Thermoregulation 161
Tryptamine 223

U

Ultradian rhythm 111, 201

V

Visual evoked potentials 27

Karl R. Popper
Penn, Great Britain

John C. Eccles
Contra, Switzerland

The Self and Its Brain

66 figures. XVI, 597 pages. 1977

Cloth DM 39,—; US \$ 19.50; £ 9.40

ISBN 3-540-08307-3

Available from your bookseller

Contents:

Materialism Transcends Itself. The Worlds 1,2 und 3.
Materialism Criticized : Some Remarks on the Self.
Historical Comments on the Mind-Body Problem. Summary.—
The Cerebral Cortex. Conscious Perception. Voluntary
Movement. The Language Centres of the Human Brain.
Global Lesions of the Human Cerebrum. Circumscribed
Cerebral Lesions.—The Self-Conscious Mind and the Brain.
Conscious Memory: The Cerebral Processes Concerned in
Storage and Retrieval.—Dialogues.

In Part I, Popper discusses the philosophical issue between dualist or even pluralist interactionism on the one side, and materialism and parallelism on the other. There is also a historical review of these issues.

In Part II, Eccles examines the mind from the neurological standpoint: the structure of the brain and its functional performance under normal as well as abnormal circumstances, for example when lesions (especially those surgically induced) are present. The result is a radical and intriguing hypothesis on the interaction between mental events and detailed neurological occurrences in the cerebral cortex.

Part III, based on twelve recorded conversations, reflects the exciting exchange between the authors as they attempt to come to terms with their conflicting opinions. This part preserves the intimate quality of these dialogues, and shows how some of the authors' viewpoints changed in the course of these daily discussions.

NEW FROM ISI®

INDEX TO SCIENTIFIC & TECHNICAL PROCEEDINGS™

There has never been an effective way to search the proceedings literature. Until now.

Now, ISI introduces the Index to Scientific & Technical Proceedings—the first multidisciplinary tool to conference proceedings and the individual papers published in them—the effective answer to the problem of searches in the proceedings literature.

Current and Comprehensive . . .

ISTP™ indexes 3,000 proceedings annually—over 80,000 individual papers—from conference proceedings published in book form and in the journal literature. Broad coverage includes: life sciences • clinical medicine • engineering and applied sciences • physical and chemical sciences • biological, environmental and energy sciences. ISTP is issued monthly and cumulated twice a year, so you get the index to proceedings shortly after their publication.

. . . and Effectively Indexed.

An unequaled system of indexes offers you effective searches with a minimum of starting information. You can locate complete entries of proceedings and papers—in an easy-to-read contents page format—with just a speaker's name . . . a sponsor . . . even a speaker's organizational affiliation. Or by conference topic, title words, or geographical location. And you get all the data you need to order books or request interlibrary loans. You even get first authors' addresses for reprint requests.

ISI's Index to Scientific & Technical Proceedings offers an effective new approach to locating the scientific and technical information in conference proceedings. Subscriptions will begin in 1978, at \$500 annually. Use the coupon below to enter your order today.

☐ Please enter my subscription to Index to Scientific & Technical Proceedings™ for 1978, at \$500 annually.

☐ Please send more information.

☐ Please send Air Mail

Europe, South & Central America, add \$100
All other locations, add \$125
